A WELCOME MESSAGE FOR THE PROGRAM DIRECTORS

Thank you all for joining us for our second annual meeting of The VEINS. I know that you all have other responsibilities, and on behalf of all of the directors of this meeting, I can honestly say that we appreciate you taking time to attend. We have incorporated many of the ideas generated from last year's event into this year's program. As a direct result of attendee input, we have expanded our topics to include non-invasive imaging, women's health, wound care, superficial venous disease/ablations, dialysis grafts and treatment of PE. Our focus is on you.

Please take advantage of the relaxed atmosphere, and approach the speakers at our "Curbside Consult" station in the Grand Ballroom A exhibit area after each session.

Industry support is essential to a successful, high quality meeting, and we encourage you to interact directly with them. The industry sponsored breakfast and luncheon symposiums have been expanded, and provide an in-depth look at topics covered in the general session.

Be sure to stay through Sunday's session, as it will be highlighted with reviews of great cases, which have been generated over the course of the last year.

THIS IS YOUR COURSE and we want you to enjoy your time here with us. Feel free to reach out to me or Dr. Kolluri directly, both at the meeting and by email, at gmishkel@prairieheart.com or rkolluri@prairieheart.com. Your concerns and suggestions are welcome and appreciated...but hopefully there will be no criticisms!

GREGORY J. MISHKEL, MD

GENERAL PROGRAM INFORMATION

PROGRAM DESCRIPTION

This event serves as the premier national venous meeting targeted at Interventional Cardiologists; marking an opportunity for comprehensive education on the treatment of patients with venous disease. We will explore the most current and future strategies for venous treatment, as well as the tools required to implement a venous program at one's own institution. This knowledge will allow learners to provide their patients with the highest standard of care and education, leading to improved health outcomes.

Several quick-paced didactic lectures will be given by a multidisciplinary group of physicians who are experienced in developing venous programs. Courses will highlight real-world experience in a "boutique setting", which allows for participant and faculty interaction on a deeper level. Furthermore, our "Curbside Consult" gives attendees the chance to meet informally with faculty in the Exhibit Hall, encouraging one-on-one discussion at an expert level.

Hands-on breakout sessions, industry symposia, and case reviews are just a few of the many additional highlights, along with internal CME provided on a nationally accredited level, and co-sponsorship by well-recognized societies. Additionally, we will work hand in hand with The JW Marriott Chicago to make certain that every aspect is as eco-friendly as possible.

BACKGROUND REQUIREMENT

None

EDUCATIONAL OBJECTIVES

At the conclusion of the program, participants will be able to:

1. Discuss the anatomy and pathophysiology of the venous system
2. Identify the appropriate means to implement a venous program
3. Recognize the importance of women's health in venous disease
4. Discuss all aspects of venous thrombosis
5. Identify the role of noninvasive tests in venous disease diagnosis
6. Discuss all facets of chronic venous insufficiency, including superficial and deep venous insufficiency
7. Recognize the various treatment options for chronic venous disease
8. Review the pathophysiology of wounds and appropriate treatment therapies

TARGET AUDIENCE

The VEINS Chicago.2012 will provide attendees with the tools necessary to develop and refine their own venous practice; and all will benefit from the multidisciplinary faculty.

- Interventional Cardiologists
- Vascular Surgeons
- Interventional Radiologists
- Internists
- Fellows in Training
- RTs, NPs, PAs, RNs and all other Ancillary Staff are also welcome to attend

PROGRAM FORMAT

A faculty comprised of nationally distinguished leaders from institutions that are well known for their expertise and experience in the treatment of venous disease will present educational content in a didactic format. Hands-on imaging and wound care sessions will enhance the learning experience; along with question and answer sessions following each lecture, and opportunities for one on one interaction with faculty. Each participant will be expected to complete a follow-up evaluation at the conclusion of the event.

CONTINUING MEDICAL EDUCATION ACCREDITATION

This activity is being planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of Prairie Cardiovascular Consultants, Ltd. and Prairie Education & Research Cooperative. Prairie Cardiovascular Consultants, Ltd. is accredited by the ACCME to provide continuing medical education for physicians.

Prairie Cardiovascular Consultants, Ltd. designates this educational activity for a maximum of 16.0 AMA PRA Category I Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

PROGRAM EVALUATION AND CERTIFICATE OF COMPLETION

Certificates of completion will be issued post conference in electronic form to registered attendees, upon completion of the mandatory program evaluation.

PLEASE VISIT THE FOLLOWING link in order to complete your evaluation: <https://www.surveymonkey.com/s/VEINS2012>

For questions regarding continuing medical education, please contact Sadie Samson, RN, BSN at ssamson@prairieresearch.com. **FACULTY DISCLOSURE**

Program faculty may have financial relationships, which may generate a perceived conflict of interest. All relationships or lack thereof will be announced at the event, as well as in writing. Any existing conflict of interest will be resolved prior to faculty presentation by the Prairie CME Planning Committee.

AMERICANS WITH DISABILITIES ACT

Prairie Cardiovascular Consultants, Ltd. and Prairie Education & Research Cooperative wish to take those steps to assure that no individual with a disability is excluded, denied services, segregated, or otherwise treated differently than other individuals because of the absence of auxiliary aides or services. If you need any of the services identified in the Americans with Disabilities Act, please contact Prairie CME at 217.492.9100.

EXPLORE THE WINDY CITY!

IN AND AROUND CHICAGO

Chicago sets the perfect backdrop not only for an innovative learning experience, but also for an enjoyable getaway; and September is the perfect time of year! We encourage you and any guests that you may have brought, to experience this magnificent city. We have specifically crafted The VEINS Chicago.2012 event schedule to allow leisure time for attendees to enjoy local attractions, cuisine, shopping, recreation, architecture, and more.

The JW Marriott is located in Chicago's downtown loop, and serves not only as a luxury hotel, but as a city landmark as well. We invite you to enjoy all that the hotel has to offer, including the interactive electronic information boards throughout, which provide maps and options for local area dining, attractions, transportation, recreation, and more. Be sure to visit our tourism page at www.theveins.org for more information.

GROUND TRANSPORTATION

You can look forward to traveling with ease here in the Windy City, as we have established special rates and services with two custom transportation services. *Please book at least 24 hours in advance.

Go Airport Express (Shuttle & Ground Transportation): 1-888-284-3826 or www.goairportexpress.com, Group Code: **VEINS**

SATELLITE SYMPOSIA: DON'T MISS OUT!

Industry-sponsored satellite symposia will take place at selected meal times throughout the conference. These symposia are non-CME, though educationally focused. Please sign-up at the Conference Registration desk for those you wish to attend, if you have not already done so. Advance sign-up is appreciated, as seating is limited. Additional information provided in Attendee Welcome Packets.

SATELLITE SYMPOSIA ARE SCHEDULED AS FOLLOWS:

Friday, Sept. 14th, 11:35am – 12:35pm (Lincoln Room)

Lunch Symposium Sponsored by Covidien

"How Incorporating Veins Changed my Practice: An Interventionalist's Perspective"

Dominick J. Stella, MD; Michelle Sloan, APN; Joseph Zygmunt, RVT, RPhS

Friday, Sept. 14th, 11:35am – 12:35pm (Madison Room)

Lunch Symposium –Sponsored by Cook Medical

"The Vessels Less Traveled: Alternative Imaging Modalities and IVC Filter Management: Imaging Modalities for Venous Disease, Filter Indication & Placement, and Filter Retrieval Techniques"

Robert McLafferty, MD; Marc Passman, MD; and Speaker TBA

Saturday, Sept. 15th, 7:00am – 8:00am (Lincoln Room)

Breakfast Symposium Sponsored by Boston Scientific

"Diagnostic & Therapeutic Options for Ovarian Vein Incompetence"

Colleen Moore, MD

Saturday, Sept. 15th, 7:00am – 8:00am (Madison Room)

Breakfast Symposium Sponsored by Volcano Corp.

"Enhancing Venous Care with Intravascular Ultrasound"

Suresh Vedantham, MD

Saturday, Sept 15th, 12:25pm – 1:25pm (Lincoln Room)

Lunch Symposium Sponsored by Bard Peripheral Vascular

"Use of the FLAIR Endovascular Stent Graft in AV Access: Recommendations Based Upon Design & Data"

Bart Dolmatch, MD, FSIR

Saturday, Sept. 15th, 12:25pm – 1:25pm (Madison Room)

Lunch Symposium Sponsored by EKOS Corp.

"VTE: Anatomy, Diagnosis, Access, And Treatment"

Robert Hubert, President & CEO, EKOS Corp.; Merrill Krolick, DO, FACC, FACP; Noah Jones, MD, FACC, FSCAI; John Gurley, MD, FACC, FACP

Sunday, Sept. 16th, 7:00am – 8:00am (Lincoln Room)

Breakfast Symposium Sponsored by Bayer Interventional/MEDRAD

"VTE: Starting an Institutional Program - Why, What, Who, and How"

Mitchell J. Silver, DO FACC FABVM
